

- FL-10
- Base Flange (240mm)

Compliance with Standards

CAAC: AC-137-CA-2015-03
FAA: AC 150/5345-42 & 46

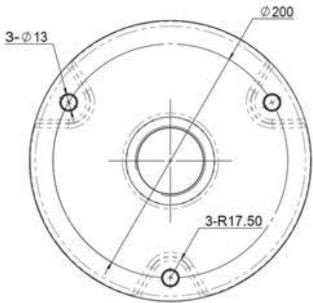

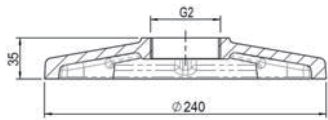

Application/Use

used for elevated light fixture installation

Features

- The flange is forged with high quality aluminium alloy material, which has good mechanical properties, load-bearing capacity and impact resistance.
- Reasonable structure design, uniform force, not easy to deform
- High precision machine tool processing, fully ensure the quality and accuracy of flange
- The flange is made of corrosion-resistant aluminium alloy. The surface is coated with aero-yellow electrostatic adsorption. It has good corrosion resistance, strong anti-ultraviolet ability and durability

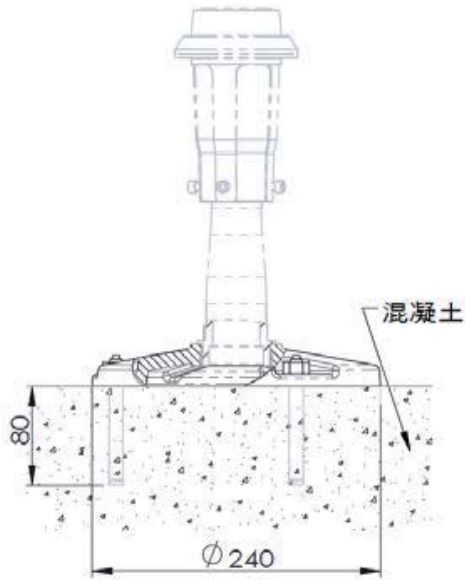

Structure

Ordering Information

Flange Ø240mm FL-10

Installation

Packing Data

6 × Flange Packing size: 240×240×180 mm³
Unit net weight: 1.3 kg Gross weight: 8.4 kg
